

The Future of Nursing ... IS NOW!

Every Nurse Is A Leader

Mary Rita Hurley, MPA, RN
Executive Director
Oregon Center for Nursing

What is the “Future of Nursing?”

- National movement inspired by the findings of the Institute of Medicine and the Robert Wood Johnson Foundation.
- Key recommendations include:

Nurses should practice to the full extent of their education ...

- Oregon is a leader allowing nurses to practice to the full scope of their education.
- Barriers to practicing at the full extent of one's education can be found:
 - nationally
 - At a state-level
 - Within one's institution
 - Within one's unit

Nurses should achieve higher levels of education ...

- Education, should include leadership, health policy, system improvement, research and evidence-based practices, teamwork and collaboration
- Education occurs in formal and informal settings every day.
 - Educational Offerings
 - Nursing Schools
 - Nursing Organizations

Nurses should achieve higher levels of education ...

Better data collection and an improved information structure

- Crucial for planning
 - Again, Oregon is a leader
 - With data collected by OSBN, OCN has been able to illustrate the supply and demand for nurses in Oregon
-
- Oregon Health Professions: Occupational and County Profiles (May 2011)
 - Nurses Wanted (August 2011)

Nurses should be full partners ... in redesigning health care in the US.

- Leadership, leadership, leadership!!!
- Nurses need to embrace leadership nationally, at a state-level and at a system-level.
 - Leaders include Bedside Nurses, Nurse Managers, Chief Nursing Officers and
